

IMPORTANT SAFETY RECALL

This notice applies to your car seat

Transport Canada Recall #: 2023-117

Dorel Recall #: DOR 2023-117

April 1st, 2023

This notice is sent to you in accordance with the requirements of the Motor Vehicle Safety Act. This is to inform you that your restraint system or booster seat may be non-compliant with the requirements of the *Motor Vehicle Restraint Systems and Booster Seats Safety Regulations* and that the non-compliance could affect the safety of a person.

Dorel Juvenile Canada has decided that all Maxi-Cosi Coral XP and Maxi-Cosi Mico XP Max rear facing infant car seats and Maxi-Cosi Infant Car Seat Base models with self-retracting universal anchorage system (UAS) fail to conform to the provisions of Canadian Motor Vehicle Safety Standard (CMVSS) No. 213 “Child Restraint Systems”.

The lower universal anchorage system (UAS) used to attach the seat base could fail. If this happens, the seat could detach in a crash. An infant seat that detaches in a crash creates an increased risk of injury. According to our records, your car seat is affected.
